- Bursary funding available to support the cost of services

Who are Dyslexia Sparks?

Our mission is to support dyslexic individuals of all ages to identify their strengths and learning needs and to enable them to overcome any barriers to success, to make progress and to reach their full potential.

We recognise the impact that dyslexia can have on significant others and extend our support to the families of dyslexic individuals.

We offer understanding, professionalism and a safe environment within which this mission can be achieved.

Who are Dyslexia Sparks?

Our vision is for a world where dyslexic individuals are valued and celebrated for what they have to offer.

We envisage a world where dyslexic individuals can unleash their inner spark in order to make valued contributions, whether at school, the world of work or within the wider community.

We aspire for schools, workplaces and governing bodies to support this vision by designing and implementing policies and procedures which allow dyslexic individuals to be fully supported in contributing to the community which they are part of.
