

Information and Support from Family Fund

Family Fund
Helping disabled children

About us

At Family Fund we want to give families raising disabled or seriously ill children the same choices, quality of life, opportunities and aspirations as other families.

We do this by:

Giving grants to families on a low income for items they may not otherwise be able to afford

Offering services to parents and carers to help them find out about the opportunities and support that is available

Providing ways for families to share their experiences, so they can influence lasting change on issues that matter to them
